

Exhibit 11: RF Exposure/Environmental Evaluation

The 900 SS Hopper can be installed with the four different types of antennas listed below:

<u>Antenna Type</u>	<u>Model</u>	<u>Antenna Gain</u>
Small Dipole		0 dBi
Large Dipole		3 dBi
Comtelco Yagi	Y2283A-66	6 dBi
Maxrad Omni	MFB9155	5 dBi

The 900 SS Hopper is professional installed and will only be installed with the antennas listed above. The antennas will always be installed so they are not closer than 20 cm from the user or general public; therefore, the RF Exposure/Environmental Evaluation was not required.
