Dear Frank:

Our client, Mr. Saito Hikaru of Tottori Sanyo, made a mistake and gave me incorrect information which I sent to you in response to your request of 1/20/00; please disregard this letter.

The headset uses specific belt-clips attached to the leather case which allows body-worn operations. It was retested to demonstrate SAR compliance and it passed. See attached new test data/plots and photos.

I am sorry for the inconvenience and hope that you will understand.

Thank you.

Regards,

Gaspara Lim
