BATTERY WARNINGS! IMPORTANT: Only adults should replace batteries.

- Use alkaline batteries is recommended.
- Do not use rechargeable batteries.
- Non-rechargeable batteries are not to be recharged.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.
- Exhausted batteries are to be removed from the toy.
- The supply terminals are not to be short-circuited.
- Please keep this information for future reference.
- Remove batteries from the product before extended storage.

Using a DC transformer instead of Battery power:

It is possible to use a transformer to replace the battery power. Use a 6V d.c. 600mA transformer with a 1.3 mm plug. These can be found at an electronic store such as Radio Shack.

Plug the transformer into the DC jack and connected to a wall socket. Then use the handheld as normal.

Power Supply (optional)

The use of external adaptor not specifically designed for the IM is not recommended or guaranteed by the manufacturer, any loss, damage or injury due to the improper use at the IM is not liable by ToyQuest or distributor of this product. PLEASE USE AT YOUR OWN DISCRETION.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☐ Reorient or relocate the receiving antenna.
- ☐ Increase the separation between the equipment and receiver.
- ☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ☐ Consult the dealer or an experienced radio/TV technician for help.
