Re: Request for Confidentiality.

We request that the enclosed design documents of our COMPACTRF-900 product (FCC ID NS900P3), specifically our schematics and bill of materials, be held confidential. Extensive research and development efforts have provided us with spread spectrum radio technology that significantly outperforms much of the competition. This new technology gives our company a competitive advantage. Our efforts could be quickly undermined if the design information were to be made public.

Thank you in advance.

Hany H. Shenouda  
President
