Re: Request for Confidentiality.

We request that the enclosed design documents of our MRX-900 product (FCC ID NS998P001X01), including schematics and photographs, be held confidential. Extensive research and development efforts have provided us with spread spectrum radio technology that significantly outperforms much of the competition. This new technology gives our company a competitive advantage. Our efforts could be quickly undermined if the design information were to be made public.

Thank you in advance.

Hany H. Shenouda President
