Dear Sir/Madam,

Re: Description of changes

This letter is to request a PCII for FCC ID: NSQTFF-1011L (whereTag III TL / WhereTag III TLB). The change made is described as below :

- (1) Battery type – change from Cell type to AA. Operating voltage remain the same.
- (2) Adding LCD display on control board
- (3) New antenna designed for better matching, but antenna type remain the same.
- (4) Use slightly larger Plastic enclosure.

RF components and layout remain electrically identical.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles A. Derrow".
