Re: Request for Confidentiality

In reference to the application under FCC ID: NT3CE-1819-10G2, and pursuant to Sections 0.457(d)(1)(ii) and 0.459 of the Commission's Rules, Communication Components Inc. hereby requests confidential treatment of the accompanying information as outlined below:

- (1) Schematic Diagrams contained in electronic file identified as CE-1819-10G2_schem.PDF.
- (2) Parts lists contained in electronic file identified as CE-1819-10G2_parts.PDF.
- (3) Internal Photographs contained in the electronic file identified as CE-1819-10G2_internal.pdf.
- (4) Operational description contained in the electronic file identified as CE-1819-10G2_operational.pdf
- (5) Block diagram identified as CE-1819-10G2 Block Diagram.doc

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these materials might be harmful to the Applicant and provide unjustified benefits to its competitors.

Specifically, disclosure of the internal photographs will reveal proprietary circuit optimization techniques which currently give us a significant advantage over our competition. This PCS amplifier is also installed in an area which is not readily accessible to the public and is strictly maintained by factory trained personnel only.

Communication Components understands that pursuant to Rule 0.457(d)(1)(ii), disclosure of this Application and all accompanying documents will not be made prior to the date of the Grant for this application.

Sincerely,

Dennis Nathan
President
Communication Components Inc.
