

American Telecommunications Certification Body Inc.

6731 Whittier Ave, McLean, VA 22101

December 9, 2002

RE: Communication Components Inc.

FCC ID: NT3DAB-DAC-1819-1

I have a few comments on this Application.

- 1.) Please provide a Form 731 for this Application.
- 2.) Internal photos show insufficient views. Please re-do all Internal photos, preferably one to a page, of sufficient detail to read the designators on the circuit boards. Please remember to show top and bottom of all photographs. Please show differences between the Amp/Booster and Amp/Combiner products.
- 3.) External Photos must show front, back, and sides of each unit.
- 4.) Please separate Parts and Schematics into separate Exhibits. The Exhibit currently uploaded is unsatisfactory.
- 5.) Please provide plots of BOTH the input and output occupied bandwidth signals fed to this equipment.
- 6.) Please demonstrate input vs. output power for this device.
- 7.) Users guide can not be held Confidential. Please review with your client and make changed to the Confidentiality Request letter.
- 8.) Please provide an operational description with greater detail. The specification literature provided is of insufficient detail. Please refer to Part 2.1033(c) for guidance.

Thank you,

William H. Graff

President and Examining Engineer

William

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
