RE: Certification Application  
FCC ID: NT8-14B115RXSNOOK

Please find enclosed application materials for certification of Visteon RXRES Receiver. This receiver board has buffered I/O ports and onboard voltage regulator and it will be used only by Visteon on a number of similar mother-boards. Three devices (a representative sample) containing the RXRES Receiver have been tested. We measured both antenna conducted and radiated emissions in the three configurations. The emissions in all configurations are practically undetectable.

Note:

- 1) portions of this submittal are filed Confidential
- 2) a list of the modifications made is provided in Attestations.

If there are any questions regarding the application or testing performed, please contact me at the above address or call 734-483-4211, fax 734-647-2106, or e-mail [liepa@umich.edu](mailto:liepa@umich.edu).

Sincerely,

A handwritten signature in cursive script that reads 'Valdis V. Liepa'.
