3. Information on the radio equipment

Manufacturer: Cádiz Electrónica, S.A
Type designation: VP4CFF-15K601-BC
Use of the equipment: transmitter for remote keyless entry system
Equipment category: Short Range Device
Frequency / Frequency range: 315 MHz ISM
Maximum transmitter output power: -24.30 dBm @ 315,125 MHz -25.98 dBm @ 314,875MHz
Number of channels and channel separation: 2, na
Modulation: ASK
Information on antenna: internal
Duty cycle: maximum transmission: <1%
Power supply: 3V DC
Applicable standards: FCC Part 15
ITU Class: 12K0A1DAN
