FCCID: NTAMMR2

Subject: Response to ATCB Comments on FCCID: NTAMMR2

1. Please find here our response to your comment letter dated 7 Apr. 2003
2. The block diagram and block diagram within the test report was corrected to state that the receiver is programmable at frequency range 905-924MHz .
3. corrected labeling showing the labels on the outside of the case are uploaded.
4. additional external photographs showing various aspects of the device (i.e. top, bottom, connectors, buttons, etc.) is uploaded.
