**Subject: NTAMMR3**

Dear Gentlemen,

The device must be professionally installed due to the following:

1. Marketing – the device is never sold retail, to the general public or by mail order. It is only sold to dealers.
2. Device requires professional installation:
  - Installation must be controlled,
  - The device must be installed by specially trained installers. The installation includes professional verification of device operation.
3. Application – the intended use is not for general public, but for commercial use only.

Sincerely,

Roman Sternberg

VP Marketing
