Subject: Request for confidentiality for AMR transmitter, FCC ID: NTAXMETER2

Dear Gentlemen,

We apply to you with request to withhold Tadiran Telematics Ltd. technological secrets in Application for Certification for FCC ID: NTAXMETER2. These secrets can be found in the transmitter schematic diagrams (4 pages of this Application) and photographs describing integral antenna configuration (2 photographs). The product is professionally installed and its integral antenna is not directly viewable by the public during use or after use. Antenna's mechanical configuration and shape disclose principal design secret.

Many thanks in advance.

Sincerely yours

Roman Sternberg

VP Marketing
