Dear Sir or Madam,

In reference to the application for permissive change under FCC ID (NVC-BSR-0001), we hereby request that the following materials submitted with the application be withheld from public disclosure:

- Block Diagram
- Schematics
- Theory of Operation
- Duty Cycle and Transmitter Timing Diagram

The reason why we would like to withhold this information from public disclosure is because we believe this technology is company proprietary. The second reason is because it supports utility security of data conveyed to the utility company.

Regards,

Joe Barrera
VP of Engineering
