

**MODEL CSI-BDA610-S89 POWER PER CHANNEL**

| <b>Channels</b> | <b>UpLink<br/>dBm</b> | <b>DownLink<br/>dBm</b> |
|-----------------|-----------------------|-------------------------|
| 1               | 30.0                  | 30.0                    |
| 2               | 26.0                  | 26.0                    |
| 3               | 23.7                  | 23.7                    |
| 4               | 22.0                  | 22.0                    |
| 5               | 20.7                  | 20.7                    |
| 6               | 19.7                  | 19.7                    |
| 7               | 18.8                  | 18.8                    |
| 8               | 18.0                  | 18.0                    |
| 9               | 17.3                  | 17.3                    |
| 10              | 16.7                  | 16.7                    |
| 11              | 16.2                  | 16.2                    |
| 12              | 15.7                  | 15.7                    |
| 13              | 15.2                  | 15.2                    |
| 14              | 14.8                  | 14.8                    |
| 15              | 14.4                  | 14.4                    |
| 16              | 14.0                  | 14.0                    |
|                 |                       |                         |
|                 |                       |                         |
|                 |                       |                         |
|                 |                       |                         |
