RE: Permit But Ask for a Part 20 Industrial Booster

To whom it may concern:

The subject device, an AWS Repeater FCC ID: NVRCSIDRACELAPRAW, operates within the AWS-1 bands of 1710 to 1755 MHz and 2110 to 2155 MHz, specifically AWS Band Blocks A - F. This repeater will be acquired directly by Verizon Wireless from its manufacturer. It will be installed by contractors under directly supervision of Verizon Wireless. It will be operated only in the specific spectrum blocks licensed to Verizon Wireless in the area in which it is operating.

I am the project manager supervising the deployment of these repeaters. Please contact me, if additional information is needed.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Pawlik", written over a horizontal line.
