REQUEST FOR CONFIDENTIALITY – Revised

The request for confidentiality of the user's manual was requested due to the exhibit being preliminary. On application NWJ10A002A we were allowed by Kenneth Nichols to keep the owner's manual confidential on the original submission. However, it was changed and submitted and made public. We rescind the request to keep this User manual confidential based solely on its preliminary nature. On the next page the request for confidentiality letter has been modified.

The "Theory of Operation and Circuit Description" has been changed to the correct title of "Operational Description."
