Chris,

This email is to answer your question from 1 to 11.

Questions 13-18 are related to SAR and most of them were I believe answered by Cheryl in Union City. I believe for SAR you are only waiting of conducted power measurements b/w the SAR and the part 24 report

For questions 1,3,4,5,6,7,8,10 please review the attached updated part 15.247 & 24 report.

For # 2 - Yes

9 - Additional photos has already been submitted to you for internal & external photos
