Correspondence Number	Memo
NWNMI043-1	<p>1. Please Provide information on the type of modulation used. Response: The modulation is FSK. Please see the revised Operational Description. 2. Please provide a complete owner's manual. Response: The owner's manual has been uploaded in its complete form. 3. Please provide complete internal photos. There is no photo that shows the PCB below one of the displays. Response: The Internal Photos has been revised to show this. 4. Please provide a new Letter of Authority and Anti-Drug Abuse letter that is addressed to CETCB. Response: A new letter of Authority and Anti-Drug Abuse Letter has been uploaded. 5. Please provide a new Confidentiality letter that is addressed to CETCB Response: A new Confidentiality Letter has been Uploaded. 6. In the operational description it describes that the device can connect to a computer. Please provide information that the device meets the Declaration of Conformity requirements. Response: The output port was operating in the same manner as a production unit. In the field, the cable does not typically connect directly to a computer, but instead, it connects to a Serial to USB adapter that the customer or we provide. The test load cable provided was similar in length and load to real world applications.</p>
