

Subject: Response to inquiry 01JUL99

- 1) A 100 ft coaxial cable will be supplied with SKY-1 Fixed Base antenna. This cable will have a UHF Type connectors on each end. The SKY-7 antenna is supplied with the cable attached to the antenna. The cable has a UHF type connector where it connects to the transmitter. The systems will be professionally installed.
- 2) Please find attached photos of the antennas. Both antennas are omnidirectional antennas with 0dB Gain.
