Family Letter RF310R / RF340R / RF350R

RF310R, RF340R and RF350R are technically identical. The RF part is the same for the three devices. External and internal photos are included to the application.

Description of differences :

RF310R :

Small-sized RFID-reading-writing device operating on 13.56 MHz, using internal magnetic loop antenna (antenna size : 4 cm x 4 cm)

RF340R :

Medium-sized RFID-reading-writing device operating on 13.56 MHz, using internal magnetic loop antenna (antenna size : 6 cm x 6 cm)

RF350R :

Medium-sized RFID-reading-writing device operating on 13.56 MHz, with antenna connector, signed for using external antennas. The RF350R does not have an internal antenna.

For details see the test report no. T40265-00-06JP.
