**Certification RF620R-2, RF630R-2, RF640R, RF670R-2**

Dear Mr. Ring,

The differences for the models are as follows:

RF620R-2 has one antenna port and one internal antenna, one DC/communication port.

RF630R-2 has two antenna ports, no internal antenna, one DC/communication port.

RF640R has one antenna port and one internal antenna, DC Port, DI/DO Port, Ethernet.

RF670R-2 has four antenna ports, no internal antenna. DC Port, DI/DO Port, Ethernet.

See also the corresponding block diagrams.

Best regards

Walter Behnke  
Head of Development
