

Differences to

Configuration, Installation and Service Manual

Data Transmission Speed:

Differing to the data transmission speed mentioned in the manual in the US-version the net. data transmission speed SLG - MDS for bunch = 1 to bunch = 6 is 1,33 Kbyte/sec (write) and 0,8 Kbyte/sec (read)

Communication Times

Communication time between the SLG and the MDS

In the calculation formula for the communication time t_{k_SLG} the value for P has a minimum of 6.
