Introduction

Taking Fun and Creepiness to a Whole New Level.
Send unsuspecting visitors scampering when one of these InsectDroids crosses their path.

A fun filled thrilling experience via Bluetooth® solution; the InsectDroids works effortlessly with your iPod touch®, iPhone® or iPad® with no additional adapter required.

The following accessories come together in the box when you purchase your InsectDroids:

Bluetooth Pairing

Before attempting to control your InsectDroids, please ensure that you pair via Bluetooth.

Turn on your InsectDroids, and on your Device, go to Settings > General > Bluetooth > toggle switch to "On".

Please note that Bluetooth uses a lot of your iPod touch, iPhone or iPad battery power. Be sure to turn off Bluetooth when you are not using it to conserve battery.

Caution! The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

InsectDroids App Download

Upon successfully pairing your InsectDroids with your device the first time, you will be prompted to download the free InsectDroids App. Tap Yes to connect to the iTunes store and download the App.

Alternatively the InsectDroids App can be downloaded manually through the App Store or entering the following URL on your internet browser: <http://itunes.apple.com/us/app/insectdroids/id494202980?mt=8>

Battery Charging & Care

Please ensure that you have adequately charged your battery before play. When the unit is charging, the light on the USB cable will be RED, and turns off when fully charged. **Please ensure that the power switch is turned off when charging.**

InsectDroids charges using the USB cable included when you purchased. Connect the USB Cable to your Mac or PC or a 5V charger to charge.

The battery won't charge

- Please ensure that you correctly connected the charger to your InsectDroid.
- If you are charging from your keyboard, please ensure it has a high-powered USB 2.0 port.

Battery Charging & Care

Warning: Lithium Ion or Lithium Polymer Rechargeable Batteries Inside (No Lithium Metal). Risk of explosion if battery is replaced with an incorrect type. Don't open or puncture the batteries, short circuit, or expose to fire, high temperatures, or water. Keep batteries out of reach of children.

- Li-Po batteries are significantly more volatile than the Alkaline, Ni-Cd or Ni-MH batteries used in RC applications. Mishandling of Li-Po batteries can result in a fire, personal injury, and/or property damage.
- By handling, charging or using the included Li-Po battery you assume all risks associated with lithium batteries.
- You must charge the included Li-Po battery in a safe area away from flammable materials.
- When charging the battery you should always remain in constant observation to monitor the charging process and react to potential problems that may occur.
- DO NOT USE A Ni-Cd or Ni-MH CHARGER. Failure to charge the battery with a compatible 5V charger may cause fire resulting in personal injury and/or property damage.

Troubleshooting

- Unable to connect Bluetooth.**
 - Please ensure that only **ONE** of your iPod touch, iPhone or iPad is connected to your InsectDroid.
 - Un-pair & delete profile on your iPod touch, iPhone or iPad Bluetooth connection in Settings > General > Bluetooth > Tap blue arrow icon > tap "Forget this Device" and re-pair.
- My InsectDroids App doesn't seem to be launching after I download it from the App Store.**
 - Delete the App completely from your iPod touch, iPhone or iPad and from your iTunes and re-download the App.
- My InsectDroid seems to be out of control or the controls are not responsive in the App.**
 - Please turn off your InsectDroid and completely exit your App by double clicking your Home Button > click and hold InsectDroids App till it jiggles > press the minus button > restart the App > turn on your InsectDroid and play again.
- The battery losses charge fast.**
 - Please ensure that you give the battery a complete charge before use.
 - Please ensure that you turn off the power on your InsectDroids when not in use.

Conditions of Sale and Product Warranty

d-Red and the Buyer agree to the following terms and conditions of Sale and Purchase:

1. The InsectDroids is guaranteed against defects in materials or workmanship for six months from the date of registered purchase. Any unit that is found to be defective will, at the discretion of d-Red, be repaired or replaced. This warranty does not cover cosmetic damage or damage due to acts of God, accident, misuse, abuse, negligence, commercial use, or modification of or to any part of the product.
2. d-Red will not be responsible for the repair or replacement of any unit damaged by user modification, negligence, abuse, improper installation, or mishandling.
3. d-Red is not responsible to the Buyer for any loss or claim of special or consequential damages arising from the use of the product. The product must NOT be used in applications that could lead to physical harm or loss of human life. Buyer is responsible to conduct their own tests to meet the safety regulation of their respective industry.
4. Products distributed, but not manufactured by d-Red, carry the full original manufacturers warranty. Such products include, but are not limited to: power supplies, sensors, I/O modules.
5. d-Red reserves the right to alter any feature or specification at any time. This warranty is limited to the original purchaser and is not transferable.

Notes to Buyer: If you disagree with any of the above terms or conditions you should promptly return the unit immediately in new and unused condition to the manufacturer or distributor within 30 days from date of purchase for a full refund.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement
This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
