The AWGN level is reported for the following conditions:

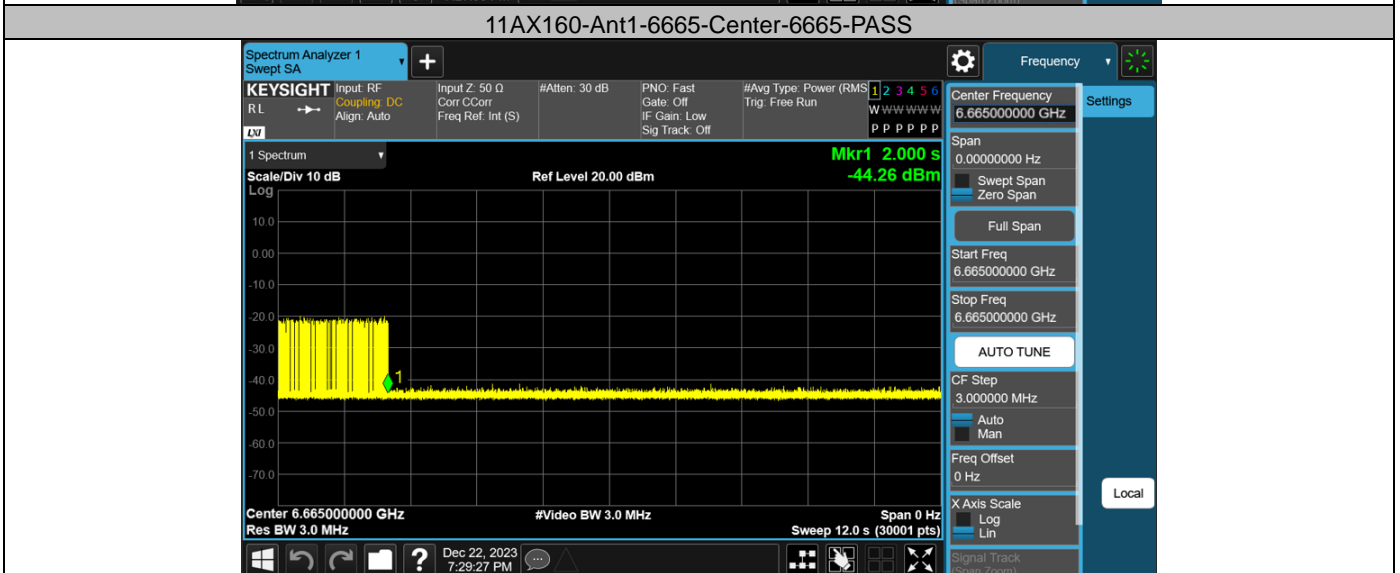

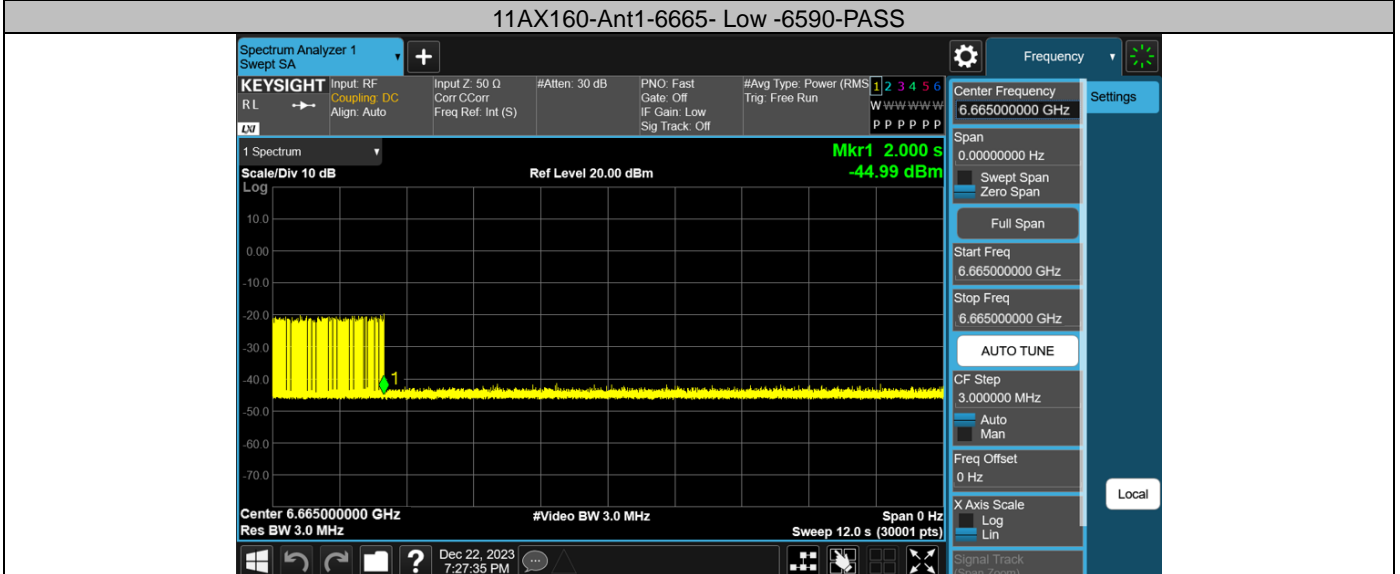

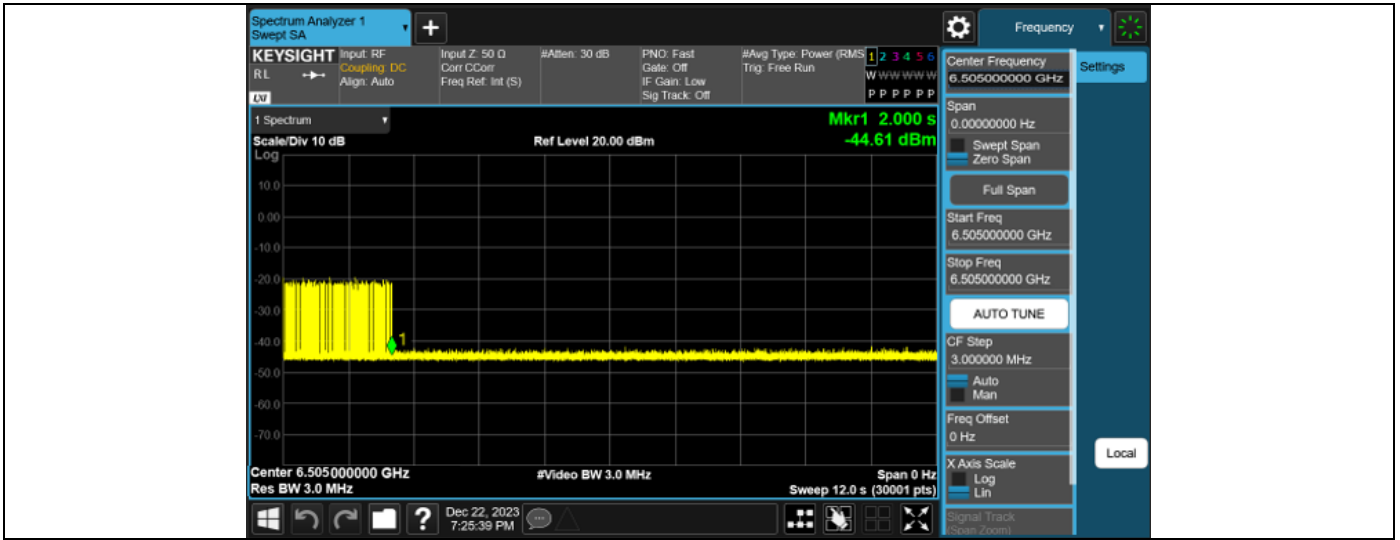

- 1.OFF=AWGN level at which no transmission is detected, consistently for a minimum period of 10 secondsl.
- 2.Minimal: AWGN level at which the system begins to trigger the transmission switch-off, albeit not being kept off consistently.
- 3.ON=AWGN level at which no impact on the transmission is detected, consistently for a minimum period of 10 seconds.
