Subject: FCC Class II Permissive Change request for colocation consideration.

This document is a request to apply for FCC Class II Permissive Changes on our RF module previously Granted/Certified under the following ID:

FCC ID: NZI-120271

Our module will be integrated in two specific final hosts SP90m and SPM865 and will be in collocation with another Granted / certified Bluetooth Radio module FCC ID: Z64-WL18DBMOD

As a consequence a new RF exposure calculations have been performed in order to check the compliance with FCC rules.

No hardware and software modification have been performed on the radio modules described above.

Signed for and on behalf of Joel HAMBERG MAGNUSSON.

A handwritten signature in black ink, appearing to read "Gilles DE BUYSER".

By authorized agent:
