

GENTEX CORPORATION

November 15, 2021

Federal Communication Commission
Equipment Approval Services, P.O. Box 358315
Pittsburgh, PA 15251-5315
Attention: Authorization & Evaluation Division

Application for Certification of Gentex Corporation Transmitter under 47 CFR 15.231.
Model: LMHL5A FCC ID: NZLLMHL5A

To whom it may concern,

Gentex Corporation requests approval for the LMHL5A product, which is a programmable frequency garage door opener and digital device controller to be installed in the automobile visor. The Gentex model LMHL5A is part of the HomeLink ® V series. HomeLink ® V devices are capable of learning garage door opener frequencies and codes from the user's original transmitter.

The device is capable of learning in the range between 286MHz and 440MHz excluding forbidden frequency regions as well as the 902-928MHz band.

The Federal Communications Commission will be notified, in writing of any changes in the software/programming of this device that could affect its RF characteristics. Please do not hesitate to contact me with any questions you may have regarding this report. As always, we look forward to your timely response.

Sincerely,

Brian Miller
Lab Regulatory Group Leader II
Gentex Corporation
