

2) For the 15B report, please note that only average emissions appear to be provided for > 1 GHz. Per compliance of 15.35(b), there is a limit on the peak levels as well. Please either update the report with appropriate peak results or provide a statement that all peak emissions > 1 GHz were less than 20 dB above the average values.

GNTX: All peak emissions above 1GHz were less than 20dB above the average values.
