Subject: FCC ID justification letter for operation out of the Part90 Bands of Operation

**Gentlemen;**

Power listed is conducted. Maximum conducted output power is 4.19 Watts per 90.205(s). This device must be restricted to work related operations in an Occupational/Controlled RF exposure Environment, not exceeding a maximum transmitting duty factor of 50%. All qualified end-users of this device must have the knowledge to control their exposure conditions and/or duration to comply with the Occupational/Controlled SAR limit and requirements. A label, as described in this filing, must be displayed on the device to direct users to specific training information for meeting Occupational Exposure Requirements. Body-worn operating configuration is limited to the specific belt-clip supplied for use with this product that provides at least 1.5 cm separation between the device and the users body. End-users must be informed of the body-worn operating requirements for satisfying RF exposure compliance.

The highest reported SAR values are - Head: 6.70 W/kg; Body-worn: 3.11 W/kg accounting for a 50% duty cycle.

EF: This device may contain functions that are not operational in U.S Territories except as noted in the filing. This grant has extended frequencies as noted in the filing and Section 2.927(b) applies to this authorization

A handwritten signature in black ink, appearing to read "HDK", written over a light blue horizontal line.
