Dear Sir / Madam

**Re: Confidentiality required for FCC ID:02J-365T**

Airspan Communications Ltd requests that all schematics and block diagrams be held as confidential items per FCC Rule Section 0.459. Specifically the following files:

<b>File Name</b>	<b>Number of pages</b>
Pages 1-23 from "schematics sch_303-1202-100_rev01.pdf"	23
Pages 1-2 from assembly drawing "assy_303-1202-900_rev01"	2
Items 1 thru 264 of Bill of Materials "1202r01_900_bom.rtf"	1
Page 1 from outline drawing "Dimensions - SCRT Outline drawing"	1
Page 1 from outline drawing "SDR Outline drawing.pdf"	1

This requirement is based upon the fact that there is proprietary operational and configuration information contained in the specified items. Release of these items to the general public, and thus to our competitors would be detrimental to our competitive edge.

Yours Sincerely

A handwritten signature in black ink, appearing to read "JOE YEUNG", written over a circular scribble.

**JOE YEUNG**
