Antenna gain declaration for Digianswer/Motorola Bluetooth Phone Module II (Clip-In II).

Antenna gain for Digianswer/Motorola Bluetooth Phone Module II (Clip-In II), HW rev. 8045551, is measured as follows:

Frequency MHz	Antenna Gain dBi
2.402	3.39
2.441	3.38
2.449	3.44
2.454	3.47
2.460	3.48
2.465	3.51
2.471	3.46
2.473	3.45
2.476	3.45
2.480	3.43
2.484	3.36
2.495	3.28

Thus max. antenna gain is 3.51 dB.

All antenna gain measurements are performed at the same hardware interface as used for measuring conducted power.
