

EXHIBIT L – Cover Letter from Agent

FCC ID O2Z-BT2

NORTHWEST EMC, INC.

22975 NW Evergreen Parkway, Suite 400
Hillsboro, OR 97124

February 14, 2001

Dear Application Examiner:

On behalf of Intel Corporation, Northwest EMC, Inc is submitting this application for the certification of the Intel(R) Personal Wireless Module. It operates from 2402 – 2480 MHz (center frequency to center frequency), with a peak output power of 2.404 mW. It is a spread spectrum transmitter that utilizes frequency hopping techniques. This RF module is compliant with Bluetooth Power Class II specifications, and will be used only in personal computers (both in desktop and notebook platforms) as a mobile transmitter.

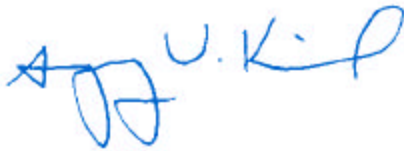

The Bluetooth module can be configured with any one of four antennas. Data is supplied with this application in support of each antenna.

The technical report and exhibits demonstrate compliance with FCC rules 47 CFR 15.247, Public Notice DA 00-705, and FCC 97-114. In addition, the EUT meets the requirements for modular approval as detailed in FCC Public Notice DA00-1407. Compliance to each of the modular approval requirements is described in Exhibit N, "Modular Approval Requirements.pdf".

To facilitate the review process, an index of exhibits has been provided (see file "Index of exhibits.pdf").

Your efforts in reviewing this application are greatly appreciated.

Best regards,

A handwritten signature in blue ink, appearing to read "G. Kiemel". The signature is stylized and includes a large initial "G" and a long horizontal stroke.

Greg Kiemel, Director of Engineering
Northwest EMC, Inc.
