

The image shows the back cover of a mobile phone. The cover is black and has a central rectangular opening. Inside this opening, a green printed circuit board (PCB) is visible, featuring a grey rectangular component and a circular brown component. Below the PCB, there is a white label with black text. At the bottom of the cover, there is a yellow metal shield with a central circular cutout and two smaller circular cutouts on either side. The shield is secured by two screws. The entire assembly is held together by eight screws around the perimeter of the black cover.
