Dear Mr. Coperich

The following item is in response to your e-mail requesting clarification of emission designator:

*Please explain why the emission designator you have requested (12K8FID) differs from originally granted (28K8FXW)*

**Response:** Please note that the emission designator listed in the 731 form is 28K8FXW (originally granted). This is the proposed emission designator. Inadvertently, we had registered incorrect emission designator (12K8FID) in the two reports: Measurement of Field Strength of Spurious Radiation (page 6) and Measurement of Effective Radiated Power (page 6). They shall be replaced with 28K8FXW.

Thanking you in advance for your kind cooperation.

Best regards,

  
Jay Sarkar
