

## Product Regulatory Information

**FCC RF Exposure Requirements: SAR compliance for body-worn operations is restricted to belt-clips, holsters, and accessories that have no metallic component in the assembly and which provide at least 1 cm separation between the device, including its antenna, and the users body.**

Changes or modifications to this unit not expressly approved by NBS Technologies Inc. could void the user's authority to operate this equipment.

## Manufacturer's Declaration of Conformit<sup>y</sup>

### American Notice

#### **FCC Part 15 (USA) Compliance (EMC)**

This device complies with the requirements in Part 15 of the FCC Rules for a Class B digital device. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
