Re: FCC ID: O3WI70500
Applicant: Palm, Inc.

Gentlemen:

Spectrum Technology, Incorporated has tested the above referenced transmitter in accordance with the applicable requirements contained in the Parts 2 and 90 of Title 47, CFR. To the best of my knowledge, these tests were performed using the criteria established in TIA/EIA, ANSI or other Industry standards. The measurements demonstrate that the equipment continues to comply with the transmitter limits established in Part 90 and the receiver limits in Part 15. The applicable rule sections are listed in the following test report.

The Open Area Test Site used for these measurements is located at Fluke Park II, Everett, Washington. Site information required by Public Notice 24541 in accordance with ANSI C63.4-1992 was filed with the FCC Authorization and Evaluation Division Sampling and Measurements Branch in July 1994 and most recently renewal has been filed concurrent with this application registration number: 101611.

Sincerely,

A handwritten signature in black ink that reads "Rod Munro". The signature is fluid and cursive, with the first name "Rod" being more prominent.

Rod Munro

President
Spectrum Technology, Inc.
