

## FCC Class II Permissive Change

Date: February 5, 2013

To: Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046-1609

### FCC Class II Permissive Change

To Whom It May Concern:

The purpose of this letter is to request a Class II permissive change for the existing grant of certification FCC ID: O4D-2012-001-SNB. The equipment modification covered by this Class II permissive change is the following:

The maximum duty cycle achievable by the transmitter during normal operation was updated.

No retesting is required to demonstrate compliance of the equipment with this modification. However, the following old exhibits provided for the original application:

Operational Description: "CONFIDENTIAL - operational description\_ver1.1.pdf"  
Test Report: "REV 12701723.001 (FCC 15C, RSS-210).pdf"

are superseded by the following new exhibits:

Operational Description: "CONFIDENTIAL - operational description\_ver1.7.pdf"  
Test Report: "12701723.004 (FCC 15C, RSS-210).pdf"

The new Operational Description includes updated information regarding the duty cycle of the transmitter and the test report was updated to take into account the new duty cycle.

Sincerely,

By: Toru Ozaki
