Left button

Push once: Display goal progression

Push twice: Find my Phone (hotkey)

Long push: Turn sleep monitoring mode on/off

Set the time

Right button

Push once: Check local / home time

Push twice: Check Sunrise / Sunset

Long push: Turn Bluetooth off

Press any button to turn on the Bluetooth®

(* Location services have to be enabled to use this function)

-1-

Dual time zone

LunaR can display both local time (LED) and home time (hands). When you travel to another timezone, LunaR will change the local time automatically. You can check the local time on your watch by pressing the lower right button once.

🕒	HOMETOWN	HOME TIME
🕒	AMSTERDAM	9:09 AM
🕒	CURRENT LOCATION	LOCAL TIME
🕒	SAN FRANCISCO	12:09 AM

-2-

Sunrise/Sunset

Push the lower right button twice to check the time of sunrise and sunset of your current location. Once the yellow LED flashes, the sunrise time will follow. The sunset time follows after the blue LED flashes.

SAN FRANCISCO		LOCAL TIME
🌅	SUNRISE	5:40 AM
🌇	SUNSET	7:42 PM

-3-

Phone notifications

Personalize your watch notifications by choosing from hundreds of LED colors. You can receive notifications for calls, texts, emails and all your favorite apps from your smartphone.

-4-

Activity tracking

Your activity at a glance. The default daily goal is set to 10,000 steps. By pushing once on the lower left button, LED's will light up and show your progress.

MILESTONE

STEPS TAKEN

2500

25% OF GOAL

Sleep monitoring

Use the LunaR app to set a daily sleep alarm or press and hold the lower left button to enable the sleep monitoring. The LED positioned at 12 o'clock will flash once.

-5-

Charging

In case you really run out of battery, there's a jumpstart device for your LunaR.

Low-battery indicator

Whenever the battery is at 10% or lower, press any of the buttons. LunaR will flash at 12 o'clock (red).
