Dear Diane:

The test laboratory responsible for preparing the test data for this application has submitted a response to my request for the signal substitution method. I am attaching/uploading it at the same time as this cover letter.

Gerald Schmidt of Cetecom has had recent conversations with Martin Perrine at the FCC about the test data submitted for this equipment and believe that in this instance, the results provided are sufficient for acceptance.

If there is anything further required, please contact me at 315-375-7860 or via email at jsprgrp@twcny.rr.com.

Best regards,
