ACCESSORIES: QUICK GUIDE / USER MANUAL

-  QUICK GUIDE
-  USER MANUAL

<p>Thank you for purchasing this innovative LOGIC device. The specifications in this document are subject to change without prior notice.</p> <p>LOGIC and the LOGIC logo are registered trademarks of Swagtek, Inc. Other trademarks are the property of their respective owners.</p> <p>Charge for 24 hours before using.</p> 	<p>Install SIM card / memory card.</p>  <p>Get to know your Logic phone</p> 	<p>Connect your Logic phone to the computer using the USB cable.</p>  <p>Copy music files from your computer to your Logic phone.</p> 	<p>FCC Statement</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device as defined in part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment.</p> <p>The equipment generates, uses, and can radiate radio frequency energy and may interfere with radio communications if not properly installed and used. There is no guarantee that interference will not occur in a particular installation. If you experience interference, you may wish to take the following steps:</p> <ul style="list-style-type: none"> 1. Reorient or relocate the receiving antenna. 2. Increase the distance between the equipment and the receiver. 3. Consult the dealer or an experienced radio/TV technician for help. <p>SAR Information Statement</p> <p>Your mobile phone is a radio transmitter and receiver. It is designed and manufactured to comply with the Federal Communications Commission (FCC) limits for exposure to radio frequency (RF) energy. The guidelines are based on scientific research and are designed to protect against adverse health effects through absorption of scientific studies. The standard includes a maximum SAR level designed to ensure the safety of the user. The exposure standard for wireless mobile phones and their accessories is based on the Specific Absorption Rate (SAR). The SAR level set by the FCC is 1.6 W/kg. Tests for SAR are conducted with the phone connected to its highest output power level.</p>	<p>FCC Statement</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device as defined in part 15 of the FCC Rules.
