Thank you for purchasing this innovative LOGIC device. The specifications in this document are subject to change without prior notice.

LOGIC and the LOGIC logo are registered trademarks of Swagtek, Inc. Other trademarks are the property of their respective owners.

Charge for 24 hours before using.

Install SIM card / memory card.

Get to know your Logic phone.

Connect your Logic phone to the computer using the USB cable.

Copy music files from your computer to your Logic phone.

FCC Statement

This equipment is in Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- The device may not cause harmful interference.
- The device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment.

This equipment generates uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

SAR Information Statement

This device is designed to be used as a transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and standards published by the FCC to protect the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standards for wireless mobile phones are based on a set of measurements known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted with the phone transmitting at its highest certified power level. The actual SAR of the phone will vary depending on the user's position and the actual SAR of the phone while operating can be well below the maximum SAR. This is because the phone is designed to operate at the lowest power level as to use and the power required to reach the network. It generally does not require the phone to operate at its maximum power level. Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government adopted requirement for safe exposure. The user performance options and features (e.g., the ear and worn on the body) as required by the FCC for each model. The highest SAR for this model phone when tested for use at the ear is 0.86 W/kg and when worn on the body, as described in the user guide.

LOGIC
works better

Warranty Certificate Terms and Conditions

LOGIC warrants that its Products will be free from defects in material and workmanship. The warranty period is one (1) year for the products and three (3) months for the accessories which are part of the original package including the figure, the user manual, the product or its purchase receipt when requesting warranty service. However, the warranty period will begin from the date of manufacture of the product. LOGIC is a product without cost to the customer if it presents a manufacturing defect or defect in workmanship during the warranty period and if the defect occurred under normal conditions of use in accordance with the instructions and specifications stated in the user's manual.

For additional information about the terms and conditions of LOGIC's Limited Warranty or to obtain warranty service information, please visit the support section at logicmobility.com.

Certificado de Garantía Términos y Condiciones

LOGIC garantiza que sus productos estarán libres de defectos de material prima y mano de obra. El periodo de garantía es de un (1) año para los productos y de tres (3) meses para los accesorios que forman parte del paquete original, incluyendo la figura, el manual del usuario y el recibo de compra cuando se solicita el servicio de garantía, en el momento de fabricación del producto. LOGIC reparará un producto, sin costo para el cliente, si presenta un defecto de fabricación o un defecto de ensamblaje durante el periodo de garantía y si el defecto aparece en condiciones normales de uso de acuerdo con las instrucciones y especificaciones indicadas en el manual del usuario.

Para más detalles de la Garantía Limitada de LOGIC, o para obtener información del servicio de garantía, por favor visite el sección de soporte en nuestro sitio web logicmobility.com.
