## ACCESSORIES: QUICK GUIDE / USER MANUAL

 **QUICK GUIDE**

 **USER MANUAL**

<p>135 mm</p>	<p>62 mm</p>	<p>Thank you for purchasing this innovative LOGIC device. The specifications in this document are subject to change without prior notice.</p> <p>LOGIC and the LOGIC logo are registered trademarks of Swagtek, Inc. Other trademarks are the property of their respective owners.</p> <p>Charge for 24 hours before using.</p> 	<p>Install SIM card / memory card.</p>  <p>Get to know your Logic phone.</p> 	<p>Connect your Logic phone to the computer using the USB cable.</p>  <p>Copy music files from your computer to your Logic phone.</p> 	<p><b>FCC Statement</b></p> <p>1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:</p> <p>(1) This device may not cause harmful interference.</p> <p>(2) This device must accept any interference received, including interference that may cause undesired operation.</p> <p>2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to residential areas.</p> <p>The equipment operates using radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.</p> <p>If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> <li>Reorient or relocate the receiving antenna.</li> <li>Increase the separation between the equipment and receiver.</li> <li>Connect the equipment to a power outlet different from that to which the receiver is connected.</li> <li>Consult the dealer or an experienced radio/TV technician for help.</li> </ul> <p><b>SAR Information Statement</b></p> <p>Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and standards permitted by the FCC for the general public. The guidelines are based on extensive test work developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to ensure the safety of all persons, regardless of age and health.</p> <p>The exposure required for wireless mobile phones with a SAR of 1.61 W/kg is well below the FCC's SAR limit. Tests for SAR are conducted with the phone transmitting at its highest certified power level and using frequency bands that the SAR is approved for. The phone will operating can be well below the maximum SAR. This is because the phone is designed to operate at the lowest power level possible to use only the power required to reach the network. The phone must be tested and certified to the FCC that it does not exceed the limit established by the government adopted requirement for safe exposure. The tests are performed in positions and locations that are the most and worst on the body as required by the FCC for each model. The highest SAR value for the mobile phone when tested for use at the ear is 1.52 W/kg and when worn on the body as described in the user guide.</p> <p>SAR measurements differ among phone models, depending upon accessories and FCC requirements. The maximum SAR in holder mode is 0.86 W/kg. SAR values may be different between the SAR of various phones and at various positions they hold. The government requirement for safe exposure. The FCC has granted an Equipment Authorization for the mobile phone with a reported SAR level indicated as in compliance with the FCC RF exposure guidelines. SAR information on the mobile phone is on file with the FCC and can be found under the "Device" option section of the FCC website. SAR information on the mobile phone is on file with the FCC and can be found under the "Device" option section of the FCC website.</p> <p><b>Body-worn Operation</b></p> <p>The device is tested for SAR in body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 20mm must be maintained between the user's body and the handset, including the antenna. This device is not for use in body-worn operations. Body-worn operations that do not meet these requirements may not comply with RF exposure requirements and could be considered as an unapproved antenna.</p>	<p>Gracias por haber adquirido este innovador producto de LOGIC.
