Subject: Requesting Class II permissive change for FCC ID: O57AX200NGW  
To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for  
FCC ID: O57AX200NGW, original granted on 01/07/2020.

The major change field under this application is:

1. The subject approved module is being used in a portable configuration- a Notebook Computer (Brand name/Model: see SAR test report), the distance between antenna and human body is 0mm and the original module report the distance is 20cm. SAR testing was performed to demonstrate RF compliance.
2. The difference compared with the original module design is antenna change. Two groups antennas are used for the subject approved module in the Notebook Computer as below listed.

Original module:

SkyCross Reference Antenna, Type: PIFA

Frequency Range (MHz)	Gain (dBi)
2400-2484	3.24
5150-5250	3.64
5250-5350	3.73
5470-5725	4.77
5725-5850	4.97

Group 1 for Notebook computer:

Ant.	Brand	Model	Type	Frequency Range (MHz)	Gain (dBi)
Ant B (Main Ant)	Luxshare	L01RF285-NB-H	PIFA Antenna	2400-2500MHz	-1.35
				5150-5350MHz	1.88
				5470-5725MHz	1.36

				5725-5850MHz	0.01
Ant A (Aux Ant)	Luxshare	L01RF286-NB-H	PIFA Antenna	2400-2500MHz	-0.68
				5150-5350MHz	-0.39
				5470-5725MHz	-0.89
				5725-5850MHz	-0.89

Group 2 for Notebook Computer:

Ant.	Brand	Model	Type	Frequency Range (MHz)	Gain (dBi)
Ant B (Main Ant)	INPAQ	MDA-LB-02-034	PIFA Antenna	2400-2500MHz	2.02
				5150-5350MHz	-0.02
				5470-5725MHz	1.03
				5725-5850MHz	2.89
Ant A (Aux Ant)	INPAQ	MDA-LB-02-035	PIFA Antenna	2400-2500MHz	-1.15
				5150-5350MHz	-0.03
				5470-5725MHz	0.48
				5725-5850MHz	2.81

- For the Notebook Computer, since it is client without DFS radar detection capability, detection threshold as set to the module remains identical, and would deactivate the link as it is operated with AP only, DFS test can be excluded.

Please contact me if you have any questions or need further information regarding this application.

Best Regards

Name: Spring Zhou
