Introduction*

The Bluetooth Keyboard Cover can be used to control a tablet with combination keys in orange legend color (for details, see special function keys) . The keyboard and the tablet can be combined for easy carrying.

Connecting to a tablet

First time pairing

While using this keyboard first time, please set the power switch to "on" position. The keyboard will enter into pairing status to pair with the tablet.

Pairing with other tablets

While pairing with other tables, please set pairing switch to Bluetooth logo position for more than 1 second to enter into pairing mode for pairing with other tablets.

Charging the Bluetooth Keyboard Cover

It takes approximately three hours to fully charge the Bluetooth Keyboard Cover for the first time, or after the battery has been fully depleted. To charge the Bluetooth Keyboard Cover, connect the USB end of the charging cable to the USB port on a computer or on the charger, and correctly attach the other end of the charging cable to the charging port. When the status indicator glows constant red, this indicates that the Bluetooth Keyboard Cover is charging. Use the dedicated USB charging cable or else the Bluetooth Keyboard Cover might become damaged.

Status indicator

Flashing red	The battery capacity is insufficient.
Constant red	The Bluetooth Keyboard Cover is charging. When charging is complete, the indicator turns off.
Flashing blue slowly	Attempting to connect to last connected device. If it connects successfully, the indicator turns off after on for two seconds.
Flashing blue quickly	The keyboard is in the pairing state and can be discovered by other devices. If the pairing is successful, the indicator turns off after one for two seconds.

Combining with a tablet

To pack it up, carefully place the tablet screen down onto the Bluetooth Keyboard Cover and gently push the edge of the tablet until it slides into the Bluetooth Keyboard Cover. When using the tablet, slide it out in the opposite direction.

Connecting to a tablet

Before using the Bluetooth Keyboard Cover for the first time, connect it to the tablet.

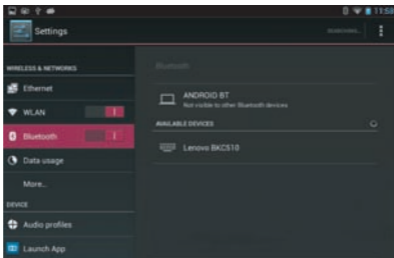

Step 1: Turn the keyboard's power switch on.

The status indicator on the keyboard will flash quickly, and the keyboard can be discovered by other devices.

Step 2: On the tablet, choose **Settings > Bluetooth** and set Bluetooth to "On" .

Step 3: A prompt indicating that the keyboard is **SEARCHING** is displayed in the upper right corner of the tablet screen. If no prompt is displayed, select **SEARCH FOR DEVICE** in the upper right corner of the tablet screen.

Step 4: Select **Lenovo BKC510** from the list of available devices on the tablet screen. When the prompt indicating that the **Lenovo BKC510** has been connected is displayed, it means that the keyboard has successfully connected to the tablet.

If the Bluetooth Keyboard Cover has successfully connected to the tablet in the past, it will automatically connect to the tablet via Bluetooth after turned on. If the connection fails, check the tablet to see if Bluetooth is set to ON and then reconnect using the previous four steps.
