EU Regulatory Conformance

Hereby, We, LENOVO(BEIJING) ,LTD ,declares that the radio equipment type WATCH 9 is in compliance with the Directive 2014/53/EU.

RF exposure

This equipment complies with RED's RF radiation exposure limits for general population without SAR evaluation.

Manufacturer: LENOVO(BEIJING) ,LTD
Address: NO.6 CHUANGYE ROAD, SHANGDI INFORMATION INDUSTRY BASE, HAIDIAN DISTRICT, BEIJING, CHINA, 100085
Importer: Lenovo, Einsteinova 21, 851 01 Bratislava, Slovakia

Location to indicate: on the radio equipment or its packaging or manual.
The device operates with the following frequency bands and transmitting power:

Frequency bands	Maximum output power
Bluetooth 2402-2480MHz	-1.11 dBm

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

The maximum operating ambient temperature of the equipment declared by the manufacturer is 50°C

Waste Electrical and Electronic Equipment (WEEE)

This symbol means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. Proper recycling of your product will protect human health and the environment.

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

- > Any changes or modifications not expressly approved by the party responsible for compliance could void the user's responsibility to operate this equipment.
- > NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.
- > This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

This equipment complies with FCC's RF radiation exposure limits for general population without SAR evaluation.
