## Troubleshooting

If you have difficulty pairing your touchpad keyboard with your computer, or if you have difficulty using the gesture controls:

- Make sure you have properly installed fresh batteries.
- Pair the keyboard and receiver again:
  - 1. Place the keyboard within 2 inches of the receiver dongle.
  - 2. Press and hold **Right/Ctrl** for 2 seconds then and slide the switch to **ON** (green).

The power indicator flashes then turns off when pairing is sucessful.

3. If pairing fails, switch the 😃 switch OFF (red), then repeat pairing steps.

## Class 1 Laser Product

This device uses a laser light beam and is classified as a CLASS 1 laser product. Do not attempt to disassemble this unit. Laser rays from the optical pickup are dangerous to the eyes.

**DANGER:** Visible and invisible laser radiation is possible if open or if the interlock fails or is defeated. Avoid direct exposure to the beam.

**CAUTION:** There are no user-serviceable parts inside this unit. Do not open the top cover. Make sure that pins or other foreign objects do not get inside the keyboard. Only a qualified service person should remove the cover or attempt to service this device due to possible eye injury.

## Important Information

- Do not place the keyboard or the receiver on a metal surface. Metal may impair the RF communication.
- For optimal performance, place the keyboard closer to the receiver.
- Do not place the receiver on the top of computer, wireless router, or monitor to avoid interference.
- If nearby RF devices cause interference, move them away from your keyboard and receiver.
- Do not modify or tamper with your keyboard's internal components. It may cause a malfunction and invalidate the warranty.
- Use and store the keyboard only in room temperature environments.
- Keep the keyboard dry; if it gets wet, wipe it dry immediately.
- Keep the keyboard away from dust and dirt, and wipe it with a damp cloth occasionally to keep it looking new.
- Handle the keyboard carefully; do not drop it.

## FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by Ignition L.P. may cause interference and void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## **Limited Warranty**

Ignition L.P. warrants this product against defects in materials and workmanship under normal use by the original purchaser for **ninety (90) days** after the date of purchase. IGNITION L.P. MAKES NO OTHER EXPRESS WARRANTIES.
