

Mr. Frank Coperich
Re: FCC ID: 06E714050B; Securicor Wireless
731 Confirmation Number TC99434
Correspondence Reference Number 1117

Per referenced inquiry:

1. The transceiver uses PLL technology based on EPROM frequency selection. The EPROM can only be programmed by a programmer available only to authorized technicians. The equipment can only be operated on internally preset discrete frequencies authorized by applicable license.
2. Please note Table 3, page 17 and Table 4, page 18; worst-case p.p.m. is -0.4. Please revise Form 731 accordingly.
3. Noted.
