FCC

SUBJECT: TRAWO TECHNOLOGY CORP. FCC ID: O6LTTA-20R

TO WHOM IT MAY CONCERN;

The Draft of the user manual is somewhat confusing but the applicant & the test lab stated that there is NO RF output of the EUT, only base band video & audio.

This EUT is a 2.4GHz RF receiver and it also has an infrared receiver in it. When the IR receiver receives a signal it decodes signal and this signal pulses modulates the 434MHz intentional radiator.

Sincerely,

Sid Sanders
