FCC

Re: For your information:

SUBJECT: TRANWO TECHNOLOGY CORP. FCC ID: O6LTTA-23R

REFERENCE: JOB #: 978TC2

To Whom It May Concern:

Test Report: Harmonic Radiated Emission Data.

The frequency 1302.080 MHz is in the "Restricted Band." The "limit" is shown as 62.00 dBuV/m in error. However, the emission is well below the 54 dBuV/m specified in Part 15.209. Therefore, we have not asked for a correction.

Very truly yours,  
Frank (for)

Sid Sanders
