Dear Bill,

This Letter is to confirm in writing that Dynastream would like to respectfully request that as much of the intellectual property for the FCC SDM Triax 100 foot sensor be kept confidential. This would include such things as circuit diagrams, component values, bill of materials, schematics, and any drawings you may have that can be kept confidential. Thank you for your attention to this matter.

Sincerely,

Kipling Fyfe  
President and CEO, Dynastream Innovations  
SDM Project Manager
